Establishment

Blue Coat is a unique Kentucky Bluegrass cultivar that produces a dense, fine leaf turf with dark green color and superior disease resistance.

Blue Coat has exhibited high resistance to rust and summer patch. It also provides a dark green color, fine to medium leaf texture and excellent density during the growing season. Blue Coat can handle heavy traffic areas which makes it ideal for sod production, sports fields, parks and golf course fairways, tees and roughs.

Blue Coat mixes well with other Kentucky Bluegrass, Perennial ryegrass, fine fescue and tall fescue.

Benefits

- Excellent density during the growing season
- Dark Green Color
- Good disease resistance
- Fine to medium leaf texture
- Excellent Wear Tolerance

Estimated Seeds per Pound - 1,300,000

Seeding Rates

New Establishment:

3-4lbs/1,000 square feet

Overseeding:

1-2lbs/ 1,000 square feet
