

RUNDLE

Color	Leaf Texture	Shade Tolerance	Wear Tolerance	Winter Color	Drought Tolerance	Density	Disease Resistance

Rundle was developed by Peak Plant Genetics for improved Brown patch resistance and turf quality. The dark green color combined with aggressive tillering results in a high quality, dense turf. Rundle was extensively selected for Brown Patch for persistence in areas of high humidity and heat. In addition, the lower crown profile results in less clippings.

Rundle is Ideally suited for home lawn, sports fields, parks, commercial properties, sod production or anywhere a top-quality turf is desired.

Benefits

- Improved Summer Activity
- Excellent Brown Patch Resistance
- Dark Green Color
- Drought Performance
- Superior Density During the Growing Season
- Aggressive Tilling (AT®) 

Seeding Rates

New Establishment:	8-10 lbs/1,000 square feet
Overseeding:	4-5 lbs/1,000 square feet
