

Creeping Red Fescue

Kent

Benefits:

- ✓ Improved Turf Quality
- ✓ Excellent Density Throughout the Growing Season
- ✓ Resistant to Red Thread
- ✓ Excellent for Low Mow Conditions

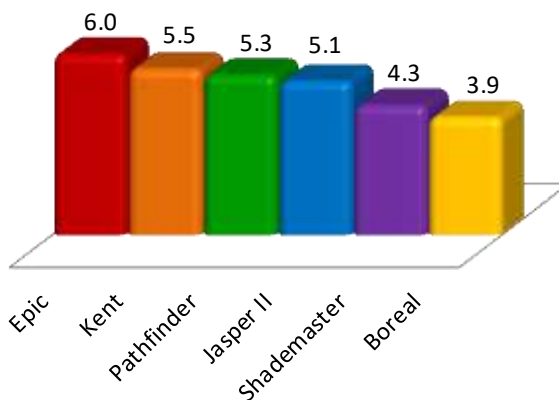

Seeding Rates:

4-6 LBS/1,000 square feet for new establishment

2-3 LBS/1,000 square feet for overseeding

Kent strong creeping red fescue is an advanced fine fescue that has shown to have improved disease resistance along with improved density during the growing season. **Kent** strong creeping red fescue also has enhanced early spring green up compared to older varieties.

Kent strong creeping red fescue performs very well in low mow/low maintenance situations where drought tolerance is needed and has above average resistance to diseases like melting out, red thread and dollar spot.

2004-07 NTEP Fine Fescue Data. Turfgrass quality in the Northeast region Ratings 1-9; 9= ideal turf. LSD value=0.3. To see full report and more please visit www.ntep.org
