

# BOMBUS

## WHITE CLOVER

Bombus is an extremely high-yielding white clover variety featuring up-right growth with large leaves. Bombus is known for its excellent establishment, persistent stand, and superior winter hardiness. Bombus also has excellent disease resistance and high protein content. It is ideal for arable feed crop production and is the perfect ingredient in crop mixtures.

### APPLICATIONS

- Great for feed crop production
- Excellent ingredient in mixtures

### MANAGEMENT

- Seeding Rate (pure stand): 4 - 5 pounds per acre
- Seeding Rate (mixtures): 1 - 2 pounds per acre
- Planting Depth: 1/4 - 1/2 inch
- For optimum quality and yield, harvest at early boot stage

### FEATURES & BENEFITS

- High yielding
- Superior winter hardiness
- High protein content
- Excellent establishment and persistent stand
